

The State of Underage Drinking in Lake County

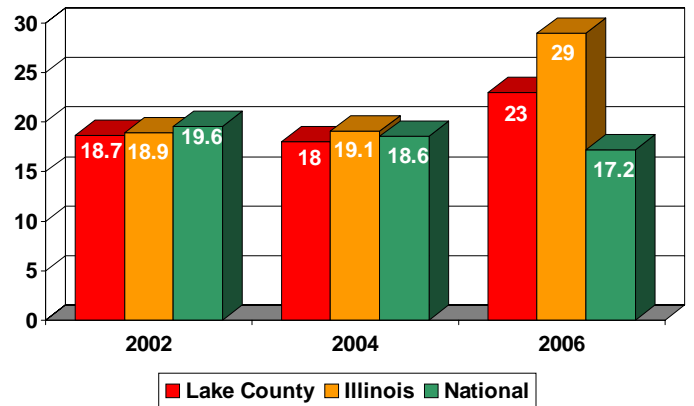

The charts below tell a story of how underage drinking in Lake County compares to Illinois and National data for 6th, 8th, 10th, and 12th graders. The county and state data is taken from the 2006 Illinois Youth Survey, which is a free survey tool provided by the Illinois Department of Human Services. The national data is taken from the 2005 Monitoring the Future survey. Approximately 1,587 - 6th graders; 1,775 - 8th graders; 1,275 - 10th graders; and 1,010 - 12th graders in Lake County participated in the 2006 Illinois Youth Survey. For more information call the Prevention Services program of the Lake County Health Department/Community Health Center at 847-543-2056.

6th Grade 30-Day Alcohol Use

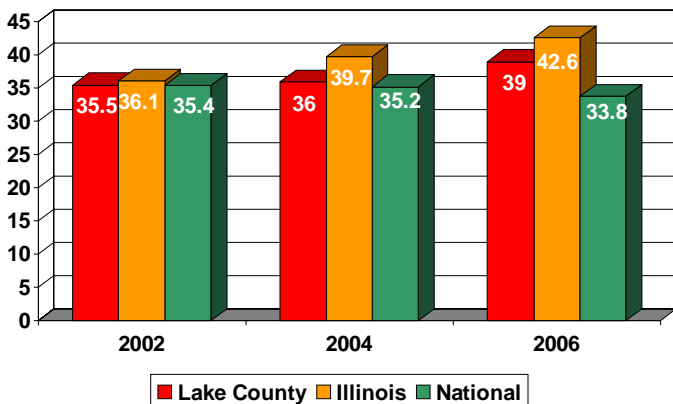

Illinois Youth Survey (2006) & Monitoring The Future (2006)
